Personal Contact

Personal contact—with whomever you wish—in any part of the country. The telephone gives you this personal voice-to-voice contact. It puts speed and convenience in the administration of business. A long distance call frequently saves a railroad trip; it often means a customer satisfied; or a carload of goods sold. Yet it costs so little—even to places far away!

Why let distance keep you apart?

Next to a visit in person, a telephone trip to those away from home brings more pleasure than anything else.

It costs so little—yet means so much.

Fireproof Storage

Moving Packing Shipping

Those who inspect our storage space are impressed with its cleanliness, its dryness and its systematic efficient arrangement. They realize, after they have seen our various departments, each devoted to a particular type of storage, that we have developed this business of taking care to a high degree.

COMFORT

When you install extension telephones you add more comfort and convenience to your home. Always within reach, they save countless footsteps and the annoyance of running from one end of the apartment to the other every time the telephone rings. Your home deserves this added up-to-dateness, especially since it costs so little.

Our nearest Business Office will be glad to suggest convenient telephone arrangements for your home.

WHAT THE TELETYPEWRITER SERVICE IS, AND HOW IT OPERATES

The teletypewriter looks and operates like an ordinary typewriter. Messages, reports, inquiries, typed in your office are *instantly* and identically reproduced on any other teletypewriter to which it is connected . . . 300 feet or 3,000 miles away.

As a subscriber to this Bell System service, your typist simply calls the desired teletypewriter by typing its number and "central" immediately makes the connection. Connections are made for five minutes or as long as you wish.

TEN OUTSTANDING FEATURES

Availability . .	The same as telephone service. Teletypewriter "central" will connect any subscriber anywhere in the United States at any time to any other subscriber.
Speed	Connections are fast—comparable to the telephone.
Two-Way Service . . .	Subscribers can type back and forth on the same connection, making inquiries and replies possible.
Accuracy . . .	The copy received is identical with that transmitted . . . Ambiguities in text can be clarified during the connection.
Simplicity . .	Any competent typist can operate it.
Privacy . . .	Communication is direct between sender and receiver.
Flexibility . .	Letter sized paper or your own forms for orders, reports, deliveries, and similar matters can be used . . . As many as six copies can be made by each teletypewriter.
Permanent Records . . .	Each subscriber has typewritten copy.

What Barrier Distance?

When you want to talk to a customer, how long does it take to get there? If you have the telephone habit you can be talking to him in just a few minutes—whether he's in Boston or San Francisco.

For speed, action, convenience use the long distance telephone.

WATERPROOFING

GUARANTEED, ABOVE AND BELOW GRADE.
POINTING. WINDOW CAULKING

Our colorless process for waterproofing exterior walls above grade will effect no change in the appearance or color of brick, stone, concrete, marble, terra cotta, or stucco buildings.

We will waterproof unconditionally, with or without removal of waterpressure, dams, reservoirs, tanks, bridge supports, pools, tunnels, foundations, elevator, engine, or furnace pits, cellars, sidewalks, walls, etc.

Hop, Skip and Jump

It takes a hop, skip and jump to answer the telephone when you're way at the other end of the apartment. For just a few cents a day, you can have an extension telephone—beside your easy chair, beside your bed—or any place you wish.

You can order yours by just telephoning our Business Office.
